

## Electronics (ENGN/PHYS 208) Project Update

Week Ending: Friday, \_\_\_\_\_, 2019

1. List Research project/Team members
2. What did your group accomplish this week? Briefly describe tasks your group worked on and/or completed, especially with reference to your proposed timeline.
3. What challenges did your group encounter this week? Briefly describe any tasks/issues that were hindered by technical issues. (The instructor will help you work through these – knowing is half the battle, at least according to G.I. Joe)
4. What's the plan of attack? Make a bullet point list of tasks that you will complete in the week ahead. Be sure to cross-reference/update your originally proposed timeline.
