

## **Bioengineering (ENGN/BIOL 267) Project Update**

**Week Ending: Friday, \_\_\_\_\_, 2020**

- 1. List Project/Team members:**
- 2. What did your group accomplish this week? Briefly describe tasks your group worked on and/or completed, especially with reference to your proposed timeline. Illustrate progress with photos, graphics, etc.**
- 3. What challenges did your group encounter this week? Briefly describe any tasks/issues that were hindered by technical issues. (The instructor will help you work through these – knowing is half the battle!)**
- 4. What's the plan of attack? Make a bullet point list of tasks that you will complete in the week ahead. Cross-reference and update your originally proposed timeline accordingly.**
